

Time to Talk May 24th

- Have a look through the food cupboards, or in the bathrooms in your house. What things are measured using Litres, ml, cl or decilitres?
- Take a look at, or make something using, a recipe that uses these measurements. Here is a possibility: <http://www.deliaonline.com/recipes/type-of-dish/desserts/pancakes/basic-pancakes-with-sugar-and-lemon.html>
- Tell your parents about your trip to the zoo.
What did you like seeing the best?
What did you find out about?
Tell them a super fact about one of the animals or groups of animals you saw.
